SUMMARY

Frontend React Developer with experience building responsive web applications using React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, REST APIs, and Git. Skilled in API integration, reusable UI components, performance optimization, and writing clean, maintainable code. Passionate about delivering scalable, user-focused frontend solutions while continuously expanding technical expertise.

WORK EXPERIENCE

DevOra | Frontend React Developer Intern (Remote) **Oct 2026**

- Developed frontend interfaces for Admin and Customer user roles in Smart Laundry using React, TypeScript, and Vite.
- Collaborated through Git branches and pull requests.

Nwafth Company | Frontend React Developer **Oct 2025 - Sep 2026**

- Built and maintained responsive React.js applications, delivering 15+ frontend features across multiple modules.
- Created 20+ shared UI components, improving code consistency and reducing development time for new features.
- Participated in Git-based team collaboration, code reviews, and production deployments while following clean coding practices.

Uneeq Interns | Web Development Intern **Mar 2025 - Aug 2025**

- Developed web applications using React.js, JavaScript, HTML, CSS, and Bootstrap.
- Implemented interactive user interfaces and page components under senior developer guidance.
- Consumed REST APIs to display and manage application data across multiple pages.
- Collaborated with backend developers and participated in debugging, testing, and feature implementation.

EDUCATION

Bachelor of Computer Science **2021 - 2025**

Cairo Higher Institute of Engineering and Computer Science

PROJECTS

Fluentive CRM | Language Center Management System

React.js, TypeScript, REST APIs, Material UI

- Developed a responsive CRM system for managing students, instructors, courses, schedules, and administrative operations.
- Built 20+ reusable React components and integrated 15+ REST API endpoints to support real-time data management.
- Improved usability by implementing responsive layouts, reusable UI architecture, and clean, maintainable code using Material UI and TypeScript.

Investa | Investment Platform
React.js, TypeScript, Tailwind CSS, Material UI, REST APIs

- Led a team of 3 developers in building a responsive investment platform for portfolio management and investment tracking.
- Developed interactive dashboards with real-time portfolio analytics, revenue insights, and investment performance visualization.
- Integrated multiple REST APIs, built modular interface elements, and optimized frontend performance to deliver a scalable user experience.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap
State Management & Routing: Context API, React Router
API Integration: REST APIs, Axios, Fetch API
Tools: Git, GitHub, Postman, npm, Vite, VS Code, Figma

TRAINING & CERTIFICATIONS

Full Stack Web Development (In Progress) **Apr 2026 - Present**
Route Academy

Web Development Internship Certificate **Issued Jul 2025**
Uneeq Interns
